

Field Day is June 28. 2024 at 2:00pm to June 29, 2025 at 2:00 PM The public is most welcome.

Field Day is ham radio's open house. Every June, more than 40,000 hams throughout North America set up temporary transmitting stations in public places to demonstrate ham radio's science, skill and service to our communities and our nation. It combines public service, emergency preparedness, community outreach, and technical skills all in a single event. Field Day has been an annual event since 1933, and remains the most popular event in ham radio.

The barn at the Metro Parks Farm, across from the fairgrounds at 7574 Columbiana-Canfield Rd, Canfield, OH, where once again we will be participating in Field Day on June 28 and 29. Anyone interested in amateur radio is welcome to come and see what it is all about, Propagation is peaking, which means we should have an opportunity for more QSOs which add up to more points. To make this year a success, we need your help with the following:

1. Friday setup, June 27. Nothing happens Saturday unless we have a crew Friday getting things ready. We will start setting up around 2:00pm and work till dark. We need all the help we can get. Monitor the W8QLY repeater at 146.745 for any last minute changes.

2. Saturday morning network and radio setup, June 28. This is when we get the electronics up and running, tested, and ready to go for the 2:00 start time.

3. Operating. We are operating as 8A again this year. This means we need a lot of operators to fill the chairs, as well as some overnight ops to keep an eye on things

4. Dinner. Starts sometime Saturday between 5:30 and 6:30pm. We can use a group of hungry ops to help consume the fantastic meal that Dean and his crew make every year. The club provides hot dogs hamburgers, and drinks, Members are asked to bring a dessert or covered dish.

5. Tear-down. Sunday at 2:00pm, All good things must eventually end, and we need a crew to take down antennas and pack up equipment.

Come out to Field Day! We hope to see you there.
