

**4BTV Hustler Vertical with Tilt-Mount.** The Hustler 4BTV 4-band HF vertical is designed as a self-supporting vertical antenna for optimum operation on the 10, 15, 20, and 40-meter bands. They can also be upgraded to operate on 75 or 80 meters (optional.) These antennas perform well in restricted-space areas, with only 21.5 ft of height. Radial wires should be used for best performance. Precision-cut DXE tilt mount is made from 3/16 in. 304 stainless steel, and includes stainless saddle clamps, wing nut knobs. Installation requires 1.5-2 inch diameter heavy-duty ground mounting pipe. Handy for working on the antenna or hiding from the HOA in the daytime. Includes 4BTV kit, tilt plate with optional accessories, antenna connection pigtail with SO-239 connector, and original Hustler and DXE high-performance installation guide. The current retail price for all these items is more than \$450 total. Sold only as a set. Yours for \$160, cash. Local pickup ONLY near Canfield, OH due to weight and oversize parts. Not interested in trades. Email: [mhaverstock52@gmail.com](mailto:mhaverstock52@gmail.com)
